To Whom It May Concern:

During my 37 year career with General Electric Company, most recently as President and CEO of GE Asset Management (GEAM), I have utilized the diversified services of Beau Dietl and Associates (BD&A) to perform projects relating to background security checks and private investigations relating to individuals and companies that GEAM was considering making a financial investment. I have also been involved with several security contracts under taken by BD&A.

I have been very satisfied with the professional nature and results of the services performed, and highly recommend BD&A in the arena which they excel. I would gladly be willing to answer any more specific questions if that would be helpful.

Very truly yours,
