Biography

Native New Yorker Bo Dietl has enjoyed a storied law enforcement and security career that has also transcended into the business and entertainment worlds. However, make no mistake. Bo remains a cop’s cop at heart.

As one of the most decorated detectives in the history of the New York Police Department, Bo dedicated more than 15 years of his life to serving and protecting the city through some of its hardest times. In the private sector, Bo has translated that drive and enthusiasm for public safety into an unsurpassed track record of showing results for some of the world’s most high-level clients, while also taking care of the little guy.

Bo’s success and affability have also made international power brokers as well as those in Washington, Albany and City Hall take notice and tap him for meaningful political roles over the course of five decades.

His many prosperous business ventures are always aimed at providing security and innovation to customers, and his second act as a Hollywood actor and producer has drawn acclaim in Oscar recognized projects.

Bo Dietl continues to live and work in New York City, where he has spent his whole life.
